Principles of action with regard to sustainability

1. Introduction

The Board of Directors of CaixaBank, S.A. ("**CaixaBank**" or the "**Bank**"), through these Principles, aims to demonstrate the commitment of the entire CaixaBank Group to consolidating **an efficient, sustainable and responsible model of action characterised by a strong social calling.**

CaixaBank is a financial group with a socially responsible universal banking model and a long-term outlook that is based on quality, engagement and specialisation. The bank bases its management on responsible action and economic efficiency, all geared towards the sustainable social and economic development of people and territory.

This sustainable approach has been a constant presence since the Bank's inception and is aligned with its purpose and values:

The **mission** of CaixaBank is to "improve our customers' financial well-being and help society prosper".

CaixaBank carries out its business activities and provides its services on the basis of its **corporate values** governing quality, trust and social commitment.

Its commitment to sustainable action aims to generate added value for both the CaixaBank Group and its stakeholders and embraces the entire value chain, from the source of the funds and assets through to their eventual application and investment.

2. Purpose and scope of application

These Sustainability Principles (the "Principles") define and establish the general principles of action and the main commitments to stakeholders that the CaixaBank Group must follow in the realm of sustainability, in line with prevailing regulations, including the Good Governance Code of Listed Companies, and in accordance with the Spanish Corporate Enterprises Act (Ley de Sociedades de Capital).

The Principles fall within the scope of the corporate mission and values. The CaixaBank Group steers its business on the basis of the following **principles**:

- Integral, responsible and sustainable action.
- Unrivalled quality of service.
- Economic efficiency.
- Adopting a long-term outlook when making decisions.
- Permanent innovation to aid with the sustainable development of communities wherever possible.

These Principles are developed and complemented not only by the Sustainable Banking Plan and *Caixabank's Code of Ethics*, but also by specific policies, rules and commitments related to its areas of application, as well as adherence to international initiatives in the field of corporate sustainability, as described in the Sustainability section of CaixaBank's corporate website. These include the United Nations Global Compact, the Principles for Responsible Banking and the Principles for Sustainable Insurance (PSI) of the United Nations Environment Programme Finance Initiative (UNEP FI), the Net-Zero Banking Alliance (NZBA) and the United Nations Principles for Responsible Investment (PRI).

The Principles and all other relevant instruments developed by the Group must help to:

- Attain CaixaBank Group's strategic objectives through responsible and sustainable practices.
- Maximise the creation of shared value for stakeholders and create long-term relationships built on trust and transparency.
- Aid the transition towards a more sustainable and inclusive economy.
- Prevent, minimise and mitigate any negative social and environmental impacts stemming from its business activities and increase the positive impacts.
- Deliver on the public commitments assumed by the CaixaBank Group in relation to sustainability.
- Enhance the reputation of the CaixaBank Group.
- Extend responsible principles and practices across society so that we can all make progress on socioeconomic and environmental concerns.
- Anticipate and respond to changes in the environment and align with new domestic and international trends in sustainability by adopting new approaches and initiatives.

These Principles are considered individual CaixaBank Principles and, as such, must govern the activity of CaixaBank and all employees, executives and members of the governance bodies. They are also corporate in nature, meaning that they extend across the entire CaixaBank Group. The governance and management bodies of all companies that form part of the Group must therefore act accordingly to implement the terms of these Principles, in line with the principle of proportionality, either by approving their own Principles or similar document largely reflecting the principles set out in this document, or by adhering to the CaixaBank Group policy, duly adjusted to their specific circumstances and needs.

The Principles are available on CaixaBank's corporate website, as well as on the online sustainability portal on the corporate intranet.
